SHIELD™**

EAGLE SHIELD  
CRUSH TEST

COMPETITOR  
CRUSH TEST

*Actual flakes shown*

Each lot of our patented Eagle Shield™ chrome over stainless fasteners goes through numerous testing procedures to insure the highest quality fastener available. As a final test we also crush test each fastener to insure there is no chrome flaking. It's easy to see from the photos why Eagle Shield™ is the preferred chrome over stainless fastener in the industry today.
